C2 SUPER 1600 AND C2 R2

XENON HEADLIGHTS RAIL

For C2 Super 1600 and C2 R2, Citroën Sport is marketing a new Xenon headlight rail fully integral with the style of the car.

This product is distinguished by its many advantages, including:

- Compactness: 4 x 152 mm diameter headlights.
- Increased field of vision (the rail is fitted in front of the bonnet).
- Lightweight with no loss of rigidity.
- Ballast ventilation provided by an air vent at the back of the headlights.

The headlight rail is supplied complete with the fixing components and wiring harnesses.
